The bride's home is at Middlesburg, but she has taught several terms of school in this county, and has made many friends during her frequent visits in and near town. YOU ARE INVITED.—Louisville is going to give a celebration, lasting three days, in honor of the return of the State troops from the war. It will be one of the greatest occasions ever known in that city. The people of the whole State are cordially invited to attend.

The Outlook acknowledges the receipt of a special invitation, as follows: "The honor of your presence is requested at the Reception and Celebration embracing Kentucky's Welcome to Kentucky's Troops, to be held in the City of Louisville on December 12th, 13th and 14th, 1898. Return of the First Regiment, Kentucky Volunteers, from Porto Rico. Executive Committee: Logan C. Murray, Chairman; W. L. Lyons, John H. Leathers, Zack Phelps, J. P. Gregory, Biscoe Hindman, Col. H. S. Cohn, J. C. Van Pelt, James B. Camp, C. F. Hubbs, J. G. A. Boyd, E. H. Bacon, President of the Commercial Club.

RAILROAD TALK.—DEAR OUTLOOK: It is impossible for one who has once lived in Owingsville to lose interest in the place, and I, one of those who have known the gracious people there, and have watched away, feel the deepest concern in everything pertaining to the little city and the people comprising it.

I was especially struck by the proposition you published last week for the construction of a railroad to intersect the Chesapeake and Ohio at Olympia. I know nothing of the merits or demerits of the proposal of the construction company in question, but I am confident that Owingsvillians can make no better investment than the outlay necessary to construct a railroad, and give Owingsville the accessibility she rightfully deserves. In fact, it is almost a moral duty. The city's location and natural advantages and the royal hospitality of her people are potent arguments in behalf of a railroad. The people should not be cut off from the outside world simply because the outlay of \$20,000 is the rugged obstruction to be surmounted. The historic old city should not be passed to posterity hampered in commercial prestige when, by an outlay the present generation would hardly feel it could be given such facilities as would place it suddenly in the ranks of the most prosperous cities in Kentucky.

A railroad to Owingsville would reclaim the trade of the western portion of Bath county which has been diverted to Mt. Sterling because of the transportation facilities that city's enterprise has acquired; the northern portion of the county, which has found a trade outlet at Carlisle, would be reclaimed, and the eastern portion of the county would suddenly drift back from Fleming's railroad points.

A railroad to Owingsville would place her merchants in closer touch with the county's people, who would look upon their county-seat with glowing pride as it took on an industrial briskeness, and would be drawn here to do trading which is now attracted to other points by virtue of the magnetism with which railroad cities are invested.

Owingsvillians should look the bare facts squarely in the face. Go out on the Mt. Sterling turnpike as far as Flat Creek and you will find that the people there know more about the business houses in Mt. Sterling than they do about those in Owingsville; the same thing with more emphasis may be said about Sharpburg, and about Preston and the country beyond. And Salt Lick, to the east of Owingsville, is commercially nearer to Mt. Sterling, fifteen miles west of Owingsville, than it is to the county-seat of Bath. The little urchin playing in the sand of Licking river tell a truer tale for far it is to "the Grange" and to Hillsboro, but has little conception of the distance to or location of Owingsville. Go to the Sherburne country and the only evidence of Owingsville's existence to be seen is the postmaster handing out copies of THE OUTLOOK to subscribers who are socially connected with Owingsville, but who are commercially connected with some point having railroad facilities.

There are evidences of these facts to be found in every issue of THE OUTLOOK. Your correspondence from Bath county sustains these assertions. In last week's issue you noted the fact that a delegation of Salt Lick business men were in Mt. Sterling; Bethel community tell of people going to Carlisle; Flat Creek of Bath county passing through Mt. Sterling to distant points; Crooks, "Several from here attended court in Mt. Sterling Monday," and even Wyoming tells of the visit to Mt. Sterling of two men who are all business and who went there in a business capacity. There are other instances in the same issue, as well as in every paper you print.

Wake up your people to the fact that railroad facilities of other cities are drawing their trade away from them. They have an opportunity to put a stop to it; the opportunity is a good one and from your paper I see that a good man is interested in it. If Owingsvillians will hold up his hands with their support they will find that he will lead them out of the dilemma they are in.

Send a Dewey bombardment through your columns in behalf of the railroad, and when the first spike is driven be ready to enlarge your paper to eight pages and build a foundation on which to place a steam engine and a fast cylinder press. The lack of a railroad has kept the George Washington hand press in your office and the acquirement of one will relegate it to obscurity. LUKE P. PETERS, Savannah, Ga., Nov. 30, 1898.

Don't spend a cent for anything in the way of Dolls, Toys, Candies, &c., until you see what Brother & Goodpastor have. They will save you money on each and every item you are going to buy if you will give them a chance.

Dr. L. H. Landman, of 503 W. 9th street, Cincinnati, Ohio, will be at the Conner Hotel, Owingsville, Ky., on Saturday, December 10th, remaining until Monday evening following. The best opportunity to have your eyes and glasses attended to while he is here.

ANDY JOINS HIS ROOM-MATES.—Frank Laughlin, the tinner, roomed with Andy Kilne and Dick Welsh, the brickmasons, while he was here. Andy got one on Frank and run it on him strong. He says that one of the boarders got sick one night and his wife came to their room to get Frank to go after a physician. Frank sprang up with alacrity and considerable excitement. Andy suggested to him to set the lamp in the hall so he could see how to get down the stairs and back. Frank adopted the suggestion as he thought, but set the water pitcher instead of the lamp. In reply to a query what Dick Welsh said about Frank's lighting his room to get Frank to go after a physician, Frank sprang up with alacrity and considerable excitement. Andy suggested to him to set the lamp in the hall so he could see how to get down the stairs and back. Frank adopted the suggestion as he thought, but set the water pitcher instead of the lamp.
